❖ INSTALLATION DETAILS

- Plug the Mouse into a USB port on the computer. The Windows operating system will automatically detect the Mouse and install the drivers.

❖ INSTALLED MOUSE SOFTWARE

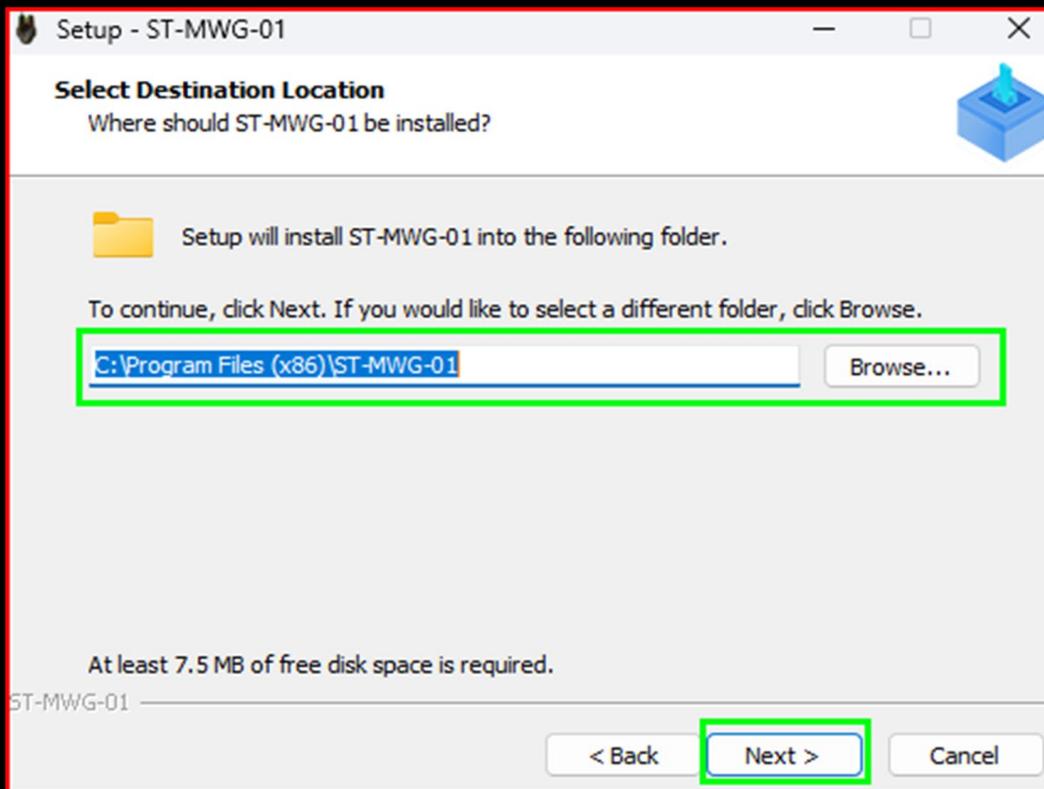

- Install the software by double clicking on the **ST-MWG-01.exe**

SWAPITECH_FIGHTER_ST-MWG-01.exe

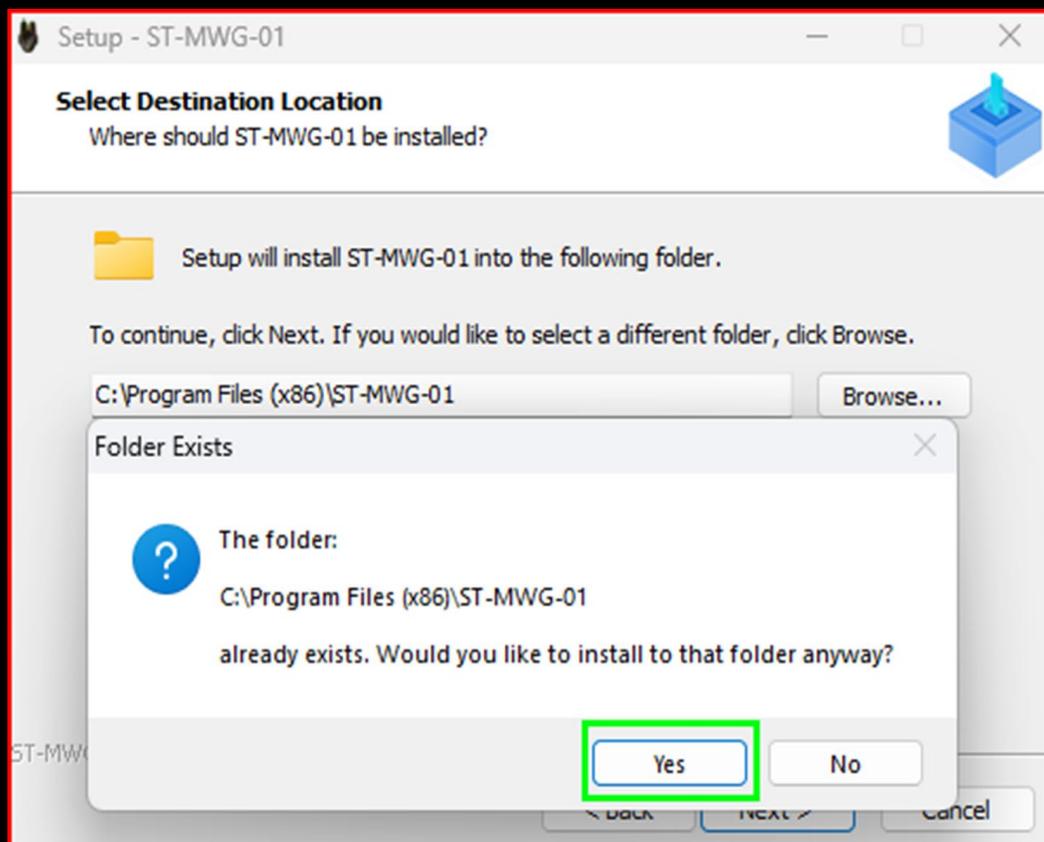

- Click - **Next**

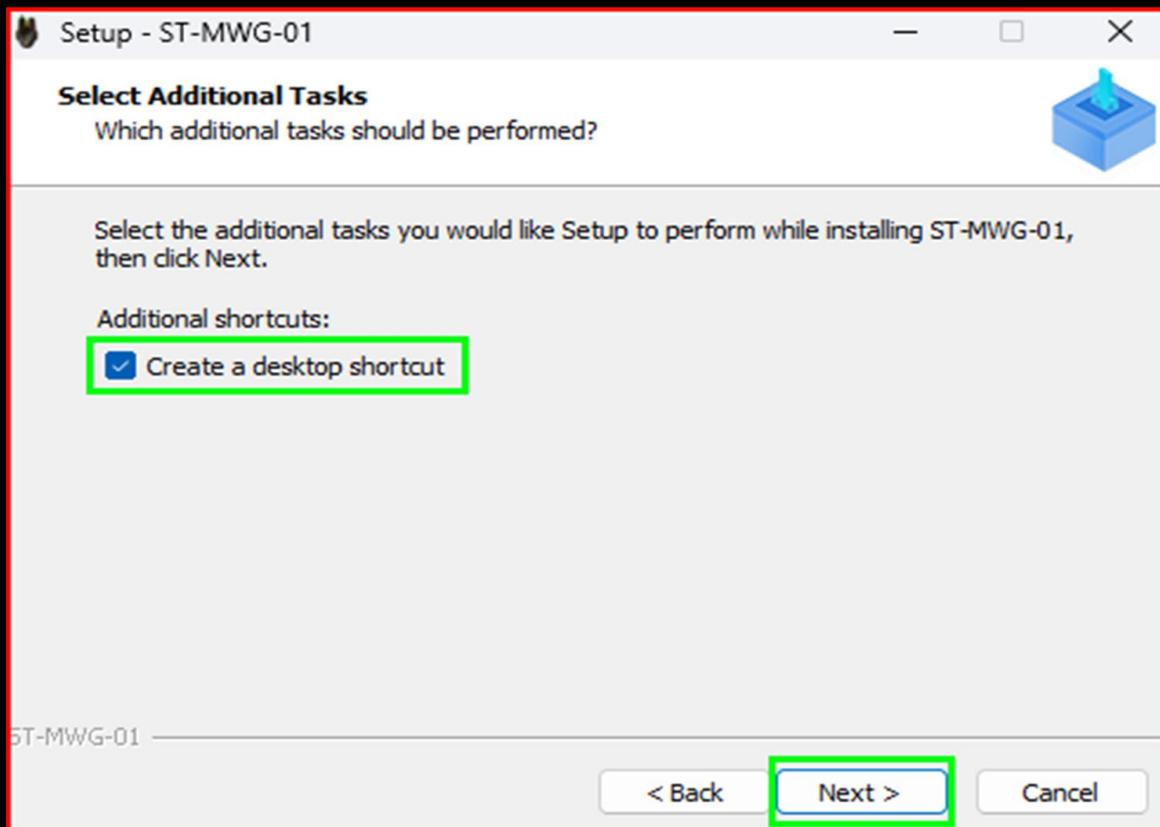

➤ Click - **Next**

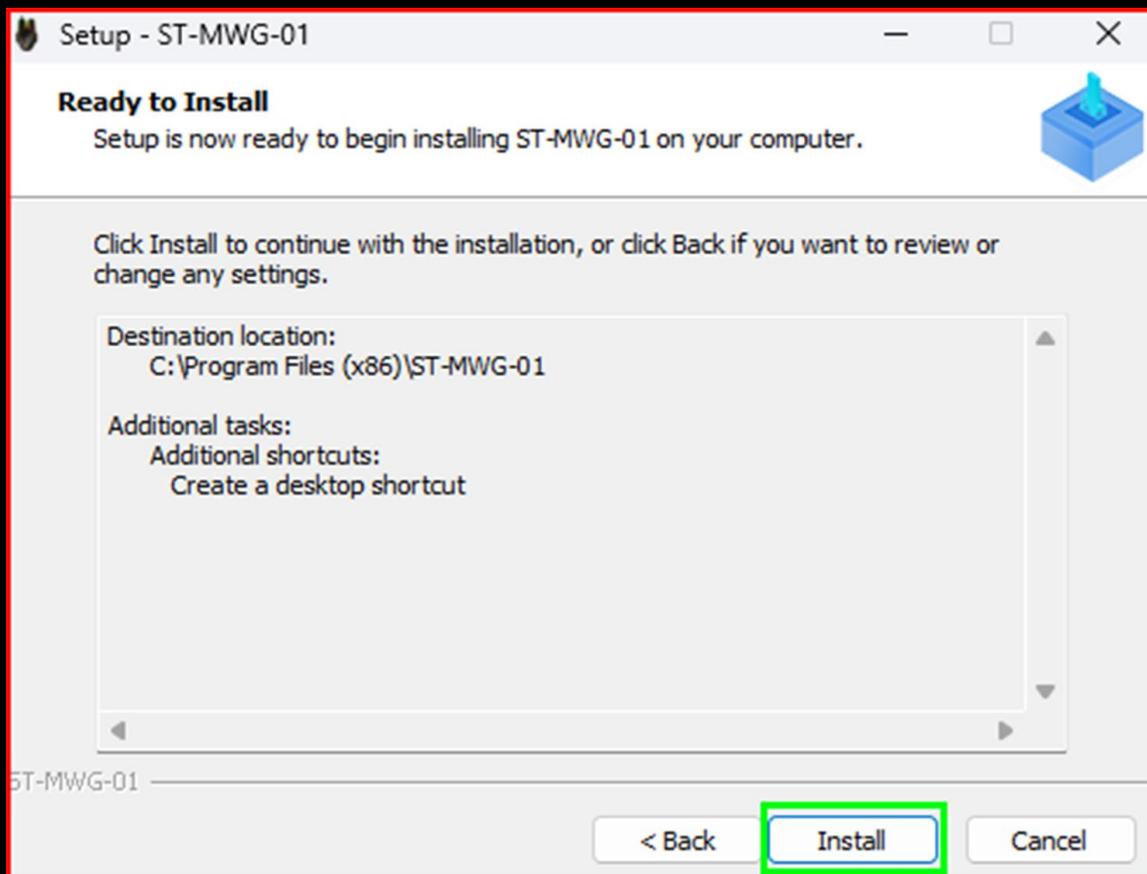

➤ Click - **Yes**

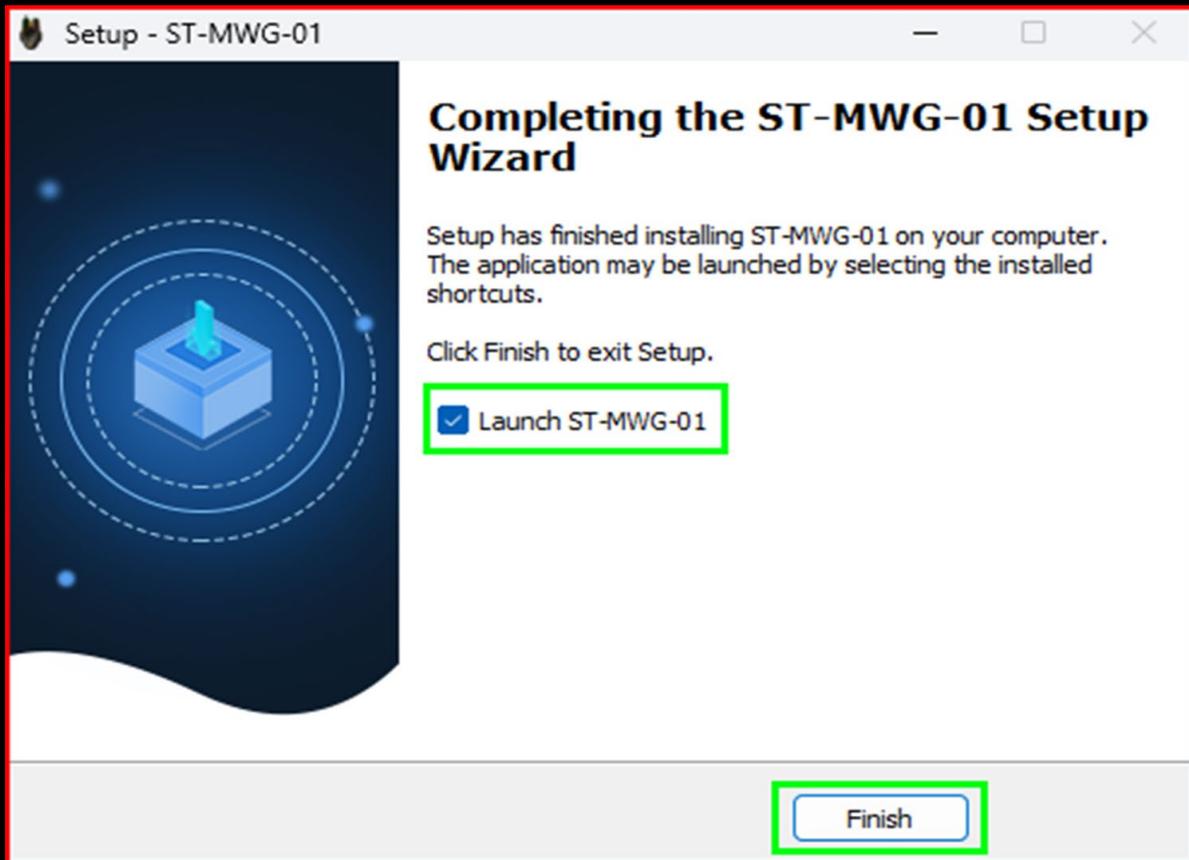

➤ Click - **Next**

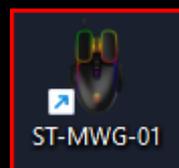

➤ Click - **Install**

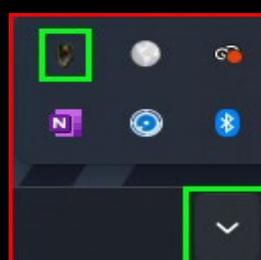

- Click - **Finish**

- Double-Click the **ST-MWG-01 Icon** on Desktop.

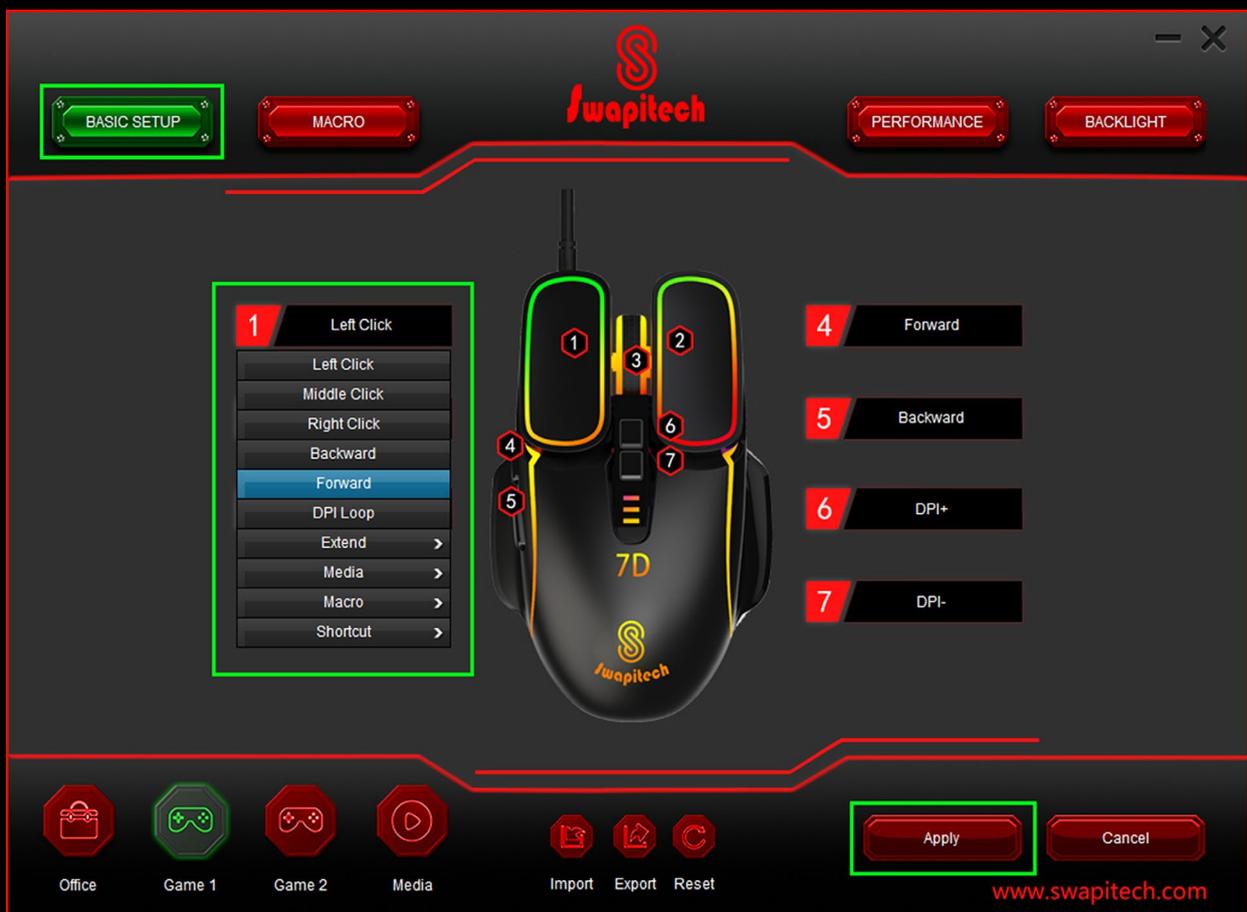

- ✓ **NOTE:** If you are trying to open the software and if it is not opening, click on the show hidden icons on the Task bar and you can see the **Mouse Icon**. Click on the mouse icon to open the software.

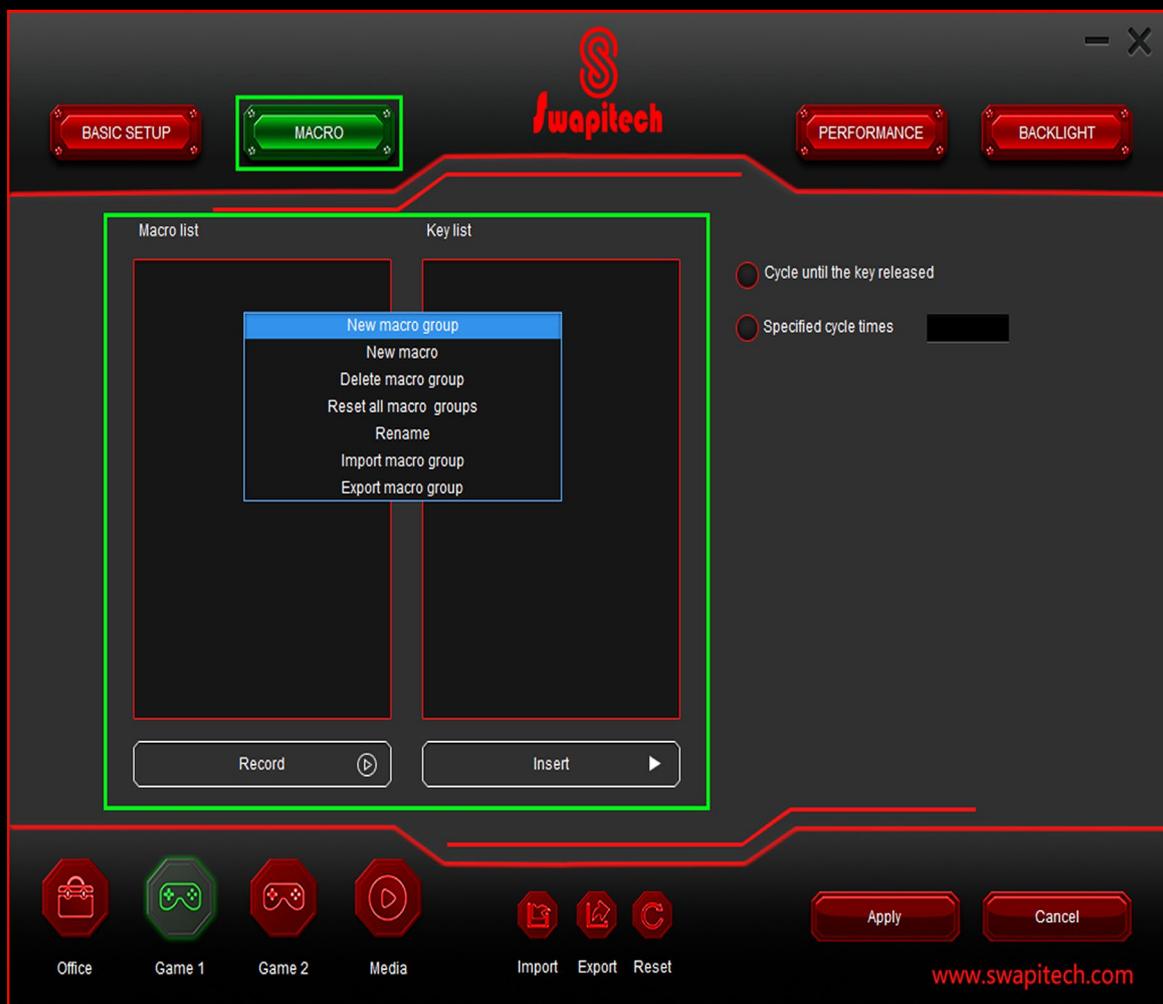

❖ CUSTOMIZE MOUSE KEYS

- **BASIC SETUP** - Click the **Basic Setup Button** and click on any 7 keys to change the action on that key according to your comfort. See the list menu below to customize each button. Select the function from the list you need; after changing the key function, Click **Apply Button** to save the changes.

❖ CREATE MACROS

- **MACRO** - Click on the **Macro Button** to configure macros to different Games. Right Click on the blank area of the Macro list the menu will open as shown below. Add **New micro group** and name according to your comfort for example: **GAME-1**.

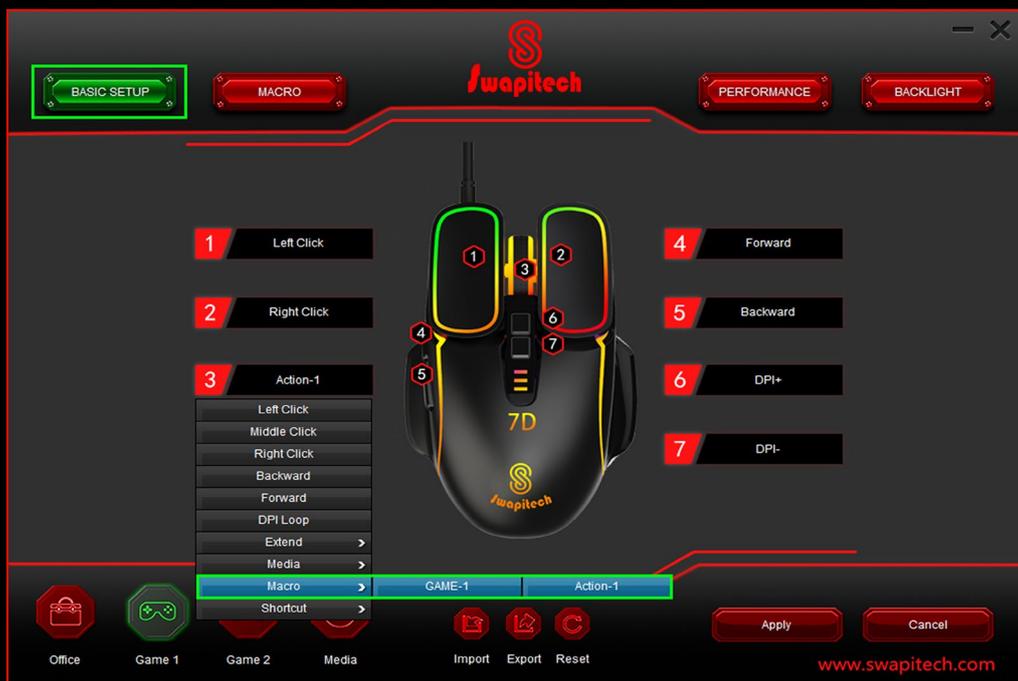

- Right Click on GAME-1 to add **New macro** for GAME-1 and rename it according to your comfort For example: **Action-1**.

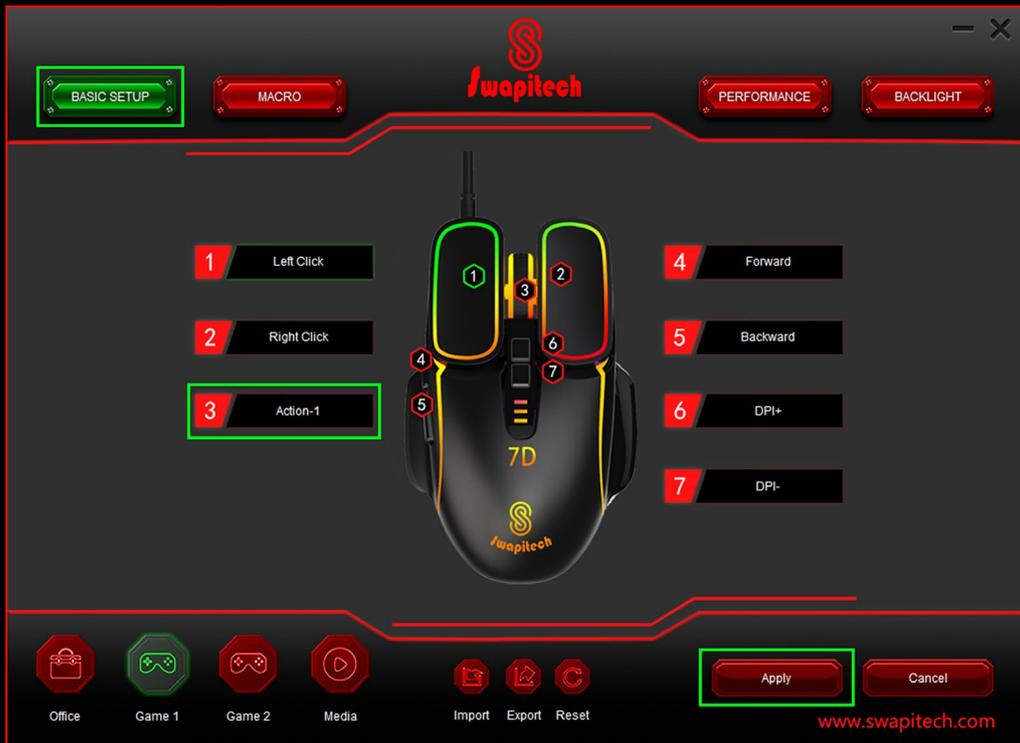

- Press **Record Button** and then press the key action on the keyboard and that key action will be recorded on the right side of the key list. Once you are done with key action then press the **Stop** and that macro will assign to **Action-1** or use **Insert Button** to add the action from the list.

- After that click on the **Basic Setup Button** and assign the Macro key for any of the 7 keys on the Mouse.

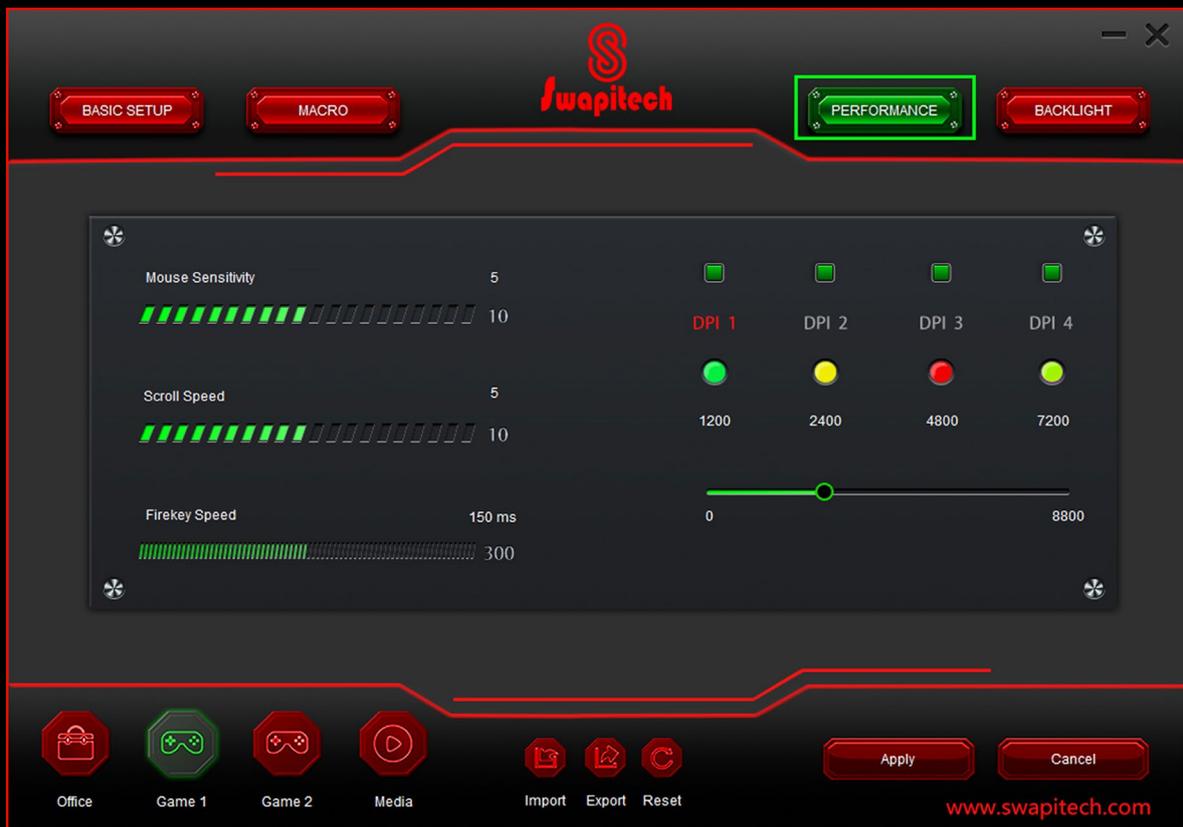

- After you assign the Macro to the Mouse Key. Click **Apply** to save the changes.
